The military payroll system shall compute CONUS Cost of Living Allowance With Dependents Amount for the pay period as follows:

1. Determine the CONUS Cost of Living Allowance With Dependents daily rate for each computation segment
2. Determine the number of day's payable for each computation segment (based on actual days of the month).
3. Compute the amount due for each computation segment (days payable X daily rate)
4. Total all computation segments within the pay period

To support auditability, the military payroll system shall maintain a pay history by pay period showing CONUS Cost of Living Allowance With Dependents payroll computation factors and results as follows:

1. CONUS Cost of Living Allowance With Dependents Amount - The total amount computed for a specific pay, allowance, debt, deduction, allotment, tax, etc. for the pay period
2. CONUS Cost of Living Allowance With Dependents Begin Date - The start date used to determine the member's eligibility for (1) pay, allowances, bonuses, debts and deductions, or (2) the member's election for tax withholding, allotments, TSP, mailing addresses, EFT, etc.
3. CONUS Cost of Living Allowance With Dependents End Date - The end date used to determine the member's eligibility for (1) pay, allowances, bonuses, debts and deductions, or (2) the member's election for tax withholding, allotments, TSP, mailing addresses, EFT, etc.
4. CONUS Cost of Living Allowance With Dependents Number of Dependents - The total number of dependents residing in the member's household and at an designated CONUS COLA Location

5. CONUS Cost of Living Allowance With Dependents Segment Amount - The amount computed for a specific computation segment within a pay period . Computation segments are created when there's a change in monthly rates, computation factors or eligibility rules and the beginning and ending dates do not coincide with the pay period's beginning and ending dates

6. CONUS Cost of Living Allowance With Dependents Segment Begin Date - The start date used to determine the member's eligibility for (1) pay, allowances, bonuses, debts and deductions, or (2) the member's election for tax withholding, TSP and allotments used for payroll computation segments within a specific pay period. A computation segment is created when the beginning and ending dates for the computation factors (i.e., grade, location, tour pay type, duty status, eligibility, pay rates, deduction rates, etc.) do not coincide with the pay period's beginning and ending dates.

7. CONUS Cost of Living Allowance With Dependents Segment End Date - The end date used to determine the member's eligibility for (1) pay, allowances, bonuses, debts and deductions, or (2) the member's election for tax withholding, TSP and allotments used for payroll computation segments within a specific pay period. A computation segment is created when the beginning and ending dates for the computation factors (i.e., grade, location, tour pay type, duty status, eligibility, pay rates, deduction rates, etc.) do not coincide with the pay period's beginning and ending dates.

8. CONUS Cost of Living Allowance With Dependents Special Pay Indicator - Indicator used to identify if member is due CONUS Cost of Living Allowance With Dependents for non-pay status

9. CONUS Cost of Living Allowance Zip Code - A specific location, area or region to which the member is assigned and used to (1) determine eligibility for pay, allowances, CZTE, taxes, or (2) identify locations with similar costs or rates such as rental costs, utility costs, housing costs, foreign currency rates, etc.

10. Duty Status - Member Duty Status captures the state of a DoD Military Service member relevant to his or her availability for duty; (i.e. confinement, separated, deceased, Unauthorized Absence, desertion, excess leave, etc.). The member's duty status is used with the Tour Pay Type to determine if the member is authorized pay and allowances for such duty status and the number of days payable

11. Payroll Calendar Date - Used to identify the pay period the entitlement or deduction was computed to determine the member's gross or net pay for the pay period. For example: BAH With Dependent Rate is processed on April 29, 2011 with effective date April 25, 2011. The transaction was input after the cutoff date for the end-of-month April 2011 pay period; therefore, monies were computed in the mid-month May 2011 pay period. The Payroll Calendar Date is May 15, 2011. Note: Any date can be used as long as the date is unique and identifies a specific pay period. In this example, May 15, 2011 is used to identify the mid-month May 2011 pay period (May 1, 2011 to May 15, 2011) and May 31, 2011 is used to identify the end-of-month May 2011 pay period (May 16, 2011 to May 31, 2011).

12. Tour Pay Type - The tour pay type in conjunction with the member's Duty Status used to determine the number of days the military member is authorized pay and allowances for the tour period and if the member is due pay and/allowance during a tour period

To support payroll computation, the military payroll system shall maintain a CONUS Cost of Living Allowance With Dependents rate table as follows:

1. Basic Pay Longevity Years - A derived date used to denote how much creditable service a member has for the purpose of determining longevity for rates for military pay entitlements
2. CONUS Cost of Living Allowance With Dependents Daily Rate - The daily, monthly or annual rate for a specific earning. The rate is used to compute the amount payable for the pay period based on eligibility dates, contract dates, tour pay type, duty status and the number of days in the pay period.
3. CONUS Cost of Living Allowance With Dependents Daily Rate Begin Date - The first day the daily, monthly or annual rate for a specific earnings if effective or authorized. The begin date changes based on legislation and annual pay raises and is used to determine the rate of pay used when computing the amount payable for current month and retroactive pay changes.
4. CONUS Cost of Living Allowance With Dependents Daily Rate End Date - The last day the daily, monthly or annual rate for a specific earnings if effective or authorized. The end date changes based on legislation and annual pay raises and is used to determine the rate of pay used when computing the amount payable for current month and retroactive pay changes.
5. CONUS Cost of Living Allowance With Dependents Number of Dependents - The total number of dependents residing in the member's household and at an designated CONUS COLA Location
6. CONUS Cost of Living Allowance Zip Code - A specific location, area or region to which the member is assigned and used to (1) determine eligibility for pay, allowances, CZTE, taxes, or (2) identify locations with similar costs or rates such as rental costs, utility costs, housing costs, foreign currency rates, etc.
7. Pay Grade - Used by the uniformed services of the United States to determine wages and benefits based on the corresponding military rank of a member of the services. While different titles or ranks may be used among the seven uniformed services, pay grades are uniform and equivalent between the services and can be used to determine seniority among a group of members from different services. Pay grades are divided into three categories: Enlisted (E), Warrant Officer (W), and Officer (O). Enlisted pay grades are E-1 through E-9; Warrant Officer pay grades are W-1 through W-5; and Officer pay grades are O-1 through O-10. Not all of the uniformed services use all of the grades; for example, the Navy does not use the grade W-1, the Air Force discontinued use of the warrant grades in the 1960s, and both the Public Health Service and National Oceanic and Atmospheric Administration do not use any of the enlisted or warrant grades.
